The following resolution of the Board of Aldermen is published for public information:

Resolved, That the City Collector, Chief Police and Clerk of the Market, shall take and collect all taxes and imposts on goods and merchandise of this city, for my taxes due the city except Market-house Coupons, and that the City Treasurer is hereby directed to collect the same from any collecting officer of this city. This resolution does not apply to the present collector, F. W. Williams, who is to be taken. After this none is to be taken, also that the Clerk give the said officers due notice.

THE RALEIGH LIGHT INFANTRY

INVITED TO THE FAYETTEVILLE

ARMORY LAFAYETTE LIGHT INFANTRY.

FAYETTEVILLE, June 17, 1875.

Commander Raleigh Light Infantry,

Raleigh, N. C.:

In behalf of the LaFayette

Light Infantry we most cordially

tender you an invitation to par-
ticipate with us in our Centennial on

Monday June 21st inst.

On motion of Mr. W. W. Jones,

Major J. P. H. Russ was made chair-
man and Messrs. Wm. H. Finch and

Jacob S. Allen were requested to act

as Secretaries.

Major Russ, in taking his seat, made

a few stirring remarks as to the ne-
cessity of work upon our part if we

wished to obtain a victory in Aug-
ust, next, and the importance of placing

the L. F. L. I. respectfully soliciting

an early reply.

We have the honor to be,

Your obedient servants,

The Raleigh Light Artillery re-
ceived a similar invitation, but we

learn that it was also impossible for

them to accept.

Considerable discussion arose as to

the question of appointing a given

number of delegates and then adding

"all Democrats from the Township

present." It was finally decided

that the chair appoint 25 delegates,

and the same will be appointed to

day, when they will be published.

THE DAILY NEWS.

SUNDAY JUNE 20, 1875.

JOHN W. DUNHAM, *Editor.*

JOHN D. CAMERON, *Associate Editor.*

THE DAILY NEWS is the Only Paper in the City of Raleigh That Takes the Telegraphic Reports.

OUR TERMS:

ADVERTISING RATES.—Per square (in Miles, Nonpareil) first insertion \$1.00, and subsequent insertion 50 cents. Contracts for advertisements of any space or time can be made at the counting-room of the News-Office.

CONTRACTORS will not be allowed to exceed their space, or advertise other than the legitimate business, except by paying specially for the same.

SUBSCRIPTION RATES—DAILY, one year, \$1.00; six months \$1.00. WEEKLY, one year, \$1.00; six months, 75 cents. INvariably in advance.

Notice to Correspondents.

No letter can be published in these columns which is not authenticated by the name of its author. This we require not for publication, but as a guarantee of the good faith of correspondents. Persons who violate this rule will have their communications consigned to the waste-basket.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only one dollar per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. *Always Cash.*

An article in Friday evening's *Sentinel* is intended and calculated to do injury to the Raleigh News only with the press, upon whom the impression is attempted to be made that the News is false to the obligations assumed as a member of the Press Association, of which the editors of the News are members and officers. Merchants and advertisers in this city and elsewhere have good reason to know that the News, as a rule, adheres rigidly to its published rates, and they will pay little attention to the charges of the *Sentinel*. Where there are variations from the rates, they are induced by such considerations as every fair minded publisher will readily appreciate. Concessions are almost always made to advertisements made for a lengthened period as against those inserted for a short time, or in connection with job work connected with the advertisement.

We deny, on the authority of the book-keeper of the News, that any such charge was made, in the sense intended to be conveyed by the *Sentinel*.

We can only infer what special case the *Sentinel* refers to. We have asked for names, which Mr. Turner declined to give. We now demand the statement of the charge, specifically as to name and circumstances, that it may be fully met. A refusal to do this will only confirm the opinion that the allegations are made for malicious purposes.

MERCANTILE AGENCIES, &c.

Thomas Francis Meagher, of New York, proposes to place before the public in a few words a History of the Origin, Rise and Progress of the Commercial Agencies in the United States and Canada, together with illustrations of a system regarded by the author as unjust, inquisitive and destructive to the reputation and credit of such as may fall under the displeasure of those agencies, or such as secret rivalry may find it advantageous to break down.

This is a matter specially interesting to merchants. They have justified, by silent acquiescence, a system founded upon secret espionage and private inquisition unto the affairs of individuals and mercantile firms. They have placed and they have left in the hands of these inquisitors a tremendous and dangerous weapon which may be used to break down the credit and character of any man who suddenly falls unprepared, ignorant from whence the deadly blow comes. If it is a system against which the merchant is disposed to rebel, now is the time to avail himself of the friendly exposition of Mr. Meagher.

Our attention is called again to an error which it seems almost impossible to correct—a belief that a vote on the Convention at the approaching election is simply an election to ascertain the will of the people, whether they will have a Convention or not. We feel almost ashamed to be compelled again, after information so often given, to say that the action of the Legislature calling a Convention was final. The only subsequent action of the people will be to elect delegates thereto, and to pass upon its transactions by a subsequent vote.

We hope the press of the State will see that this error is generally corrected. In some sections the information may be unnecessary, but for others, it appears to be important.

Postmaster-General Jewel is a very lumbering man with his rosy complexion, white beard, and sympathetic eyes, and is more admired by the ladies than any other member of the Cabinet.

CUMBERLAND CENTENNIAL.

Concord has had its rejoicings over the Centennial of the battle of Lexington. Charlotte has had its glorification over that of Mecklenburg. Boston has just magnificently commemorated that of Bunker Hill. And now the town of Fayetteville prepares to recall the patriotism of the bold men of '75 by fitting tribute to their claims upon the remembrance of posterity.

The formation of the Cumberland Association is remarkable in one significant aspect—it was formed by portion of a people apart from the rest in opinion and sentiment.

The great majority of the population was Scotch,—royalists, many of whom had been exiled to America after the battle of Culloden, but all of whom before embarkation from Scotland had been compelled to take or renew the oath of allegiance to Great Britain. The same obligation of fealty was transmitted to their children. Loyalty, which is a religious sentiment in Scotch blood, held them faithful to their king even in trans-atlantic exile.—Hence sympathy with the other American colonists in their rebellion against the mother country was not entertained, and the Scotch population of the Cape Fear country remained faithful to the King.

Those who formed the Cumberland Association appear to have had a different origin from those among whom they lived. They readily entered into the plans of the other colonies.

In fact, from the date of their resolves, they appear to have led and to have formed public opinion, and to have done much to kindle that spirit of resistance which developed itself into open war.

But it should not be forgotten how much of hostility and personal peril each member of the Association invited upon himself. These few men stood isolated among a population in whose minds resistance to royalty was damnable heresy. Every instinct of loyalty demanded that this resistance should be punished to death.

All honor to the men of Cumberland who dared so much, and all honor to the present patriotic citizens of that county for holding up their transactions to the admiration of the world, to challenge comparison with what may have been more brilliant and more striking, but which was not at all more daring or more patriotic.

We present the resolves of the association adopted in the town of Fayetteville, then Cross Creek, on the 20th day of June 1775:

THE ASSOCIATION, JUNE 20, 1775.

The actual commencement of hostilities against the continent, by the British troops, in the bloody scene on the 19th of April last, near Boston, the increase of arbitrary impositions from a wicked and despotic Ministry, and the dread of instigated insurrections in the colonies, are causes sufficient to drive an oppressed people to the use of arms. We, therefore, the inhabitants of Cumberland County, holding ourselves bound by the most sacred of all obligations, the duty of good citizens towards an injured country, and thoroughly convinced, that, under our distressed circumstances, we shall be justified in resisting force by force, do unite ourselves under every tie of religion and honor, and associate in a band of resistance against every foe, hereby solemnly engaging that whenever our Continental or Provincial Councils shall decree it necessary, we will go forth and be ready to sacrifice our lives and fortunes to secure her freedom and safety. This obligation to continue in full force until a reconciliation shall take place between Great Britain and America, upon conditions to be agreed.

Prof. Shepherd is a native of Fayetteville, North Carolina, a nephew of Mr. Dobbin, Secretary of the Navy under President Pierce. He was educated at the University of Virginia, and was also previously at the Military Institute of North Carolina, under General (then Professor) D. H. Hill. He entered the Confederate Army at the age of seventeen, became a captain at eighteen, fought in the battles of Bull Run, Fredericksburg, and when wounded at Gettysburg was brought a prisoner to Baltimore and kept here several weeks. He was confined on Johnson's Island till about the close of the war. He then took charge of an academy in North Carolina till 1865, when he came to Baltimore and taught at Pembroke School. He was elected to the professorship in the City College, which he is to resign to take the superintendence of public schools made vacant by the death of Prof. Creer.

A man wearing a nice "plug" hat was arrested and incarcerated in the Providence lock-up the other day, very anxious to know that no one should know his name or where he was. After his release he was observed about town with his nice hat on, having upon it the tell-tale legend, "This hat belongs to man in cell No 17," the officers having been very careful of his property, but having forgotten to remove the label.

Laws for the protection of birds are derided. In the South every boy as soon as he can hold a gun off hand begins his warfare against everything feathered that comes in his way. Birds become his natural prey, and bird killing right with which the law has no concern. But Providence does nothing in vain. Birds have their mission as well as man. They war instinctively and effectively upon the insect pests, who in their turn, are fighting against the farmer. The wanton and extensive destruction of birds have their results in destroyed, diminished or diseased crops. In Alabama and other Southern States, when every negro has his gun and spends half his time at all seasons

in killing all kinds of birds from the sparrow to the crow, the caterpillar and army worm have immensely increased from the destruction of their great check. It may be that in turn the worm will make the crop a very precarious one. But the most striking example is offered in the West when the grasshopper once kept down by grouse and partridges and other birds, has now undisputed sway because the grouse and partridges have all been killed to supply the market.

Let the birds have the benefit of the law for their protection.

The Petersburg *News* charges us with shortness of memory in disclaiming editorially the advocacy of the name of Jefferson Davis for the Presidency of the University. We made that disclaimer, not from any opposition to that distinguished gentleman. On the contrary, as among those out of the State evidently fitted for that position, he stands first, and during the meeting of the Board we brought him forward. But we were aware of the sentiments of some among the most influential of the Board, and for prudential reasons we did not press any name. We anticipated just such action as has been had—that no President would be selected at the meeting of the Trustees, just concluded.

The language of the Petersburg *News* is so emphatic, that we feared our memory had failed us, and we have examined our files to see what editorial was the foundation of its assertion.

In the issue of June 1st, we find the following in connection with the subject of the Presidency :

A difficulty will be experienced in the selection of a President, or in the acquisitiveness of the one selected, in the choice. There is no question that a name honored through the South and respected through the nation, would have the same influence upon the fortunes of the University of North Carolina as the selection Gen. Lee as the head of Washington College.

This would cover very exactly the case of Jefferson Davis. But so it would that of Gen. Jos. Johnston, Gen. John B. Gordon or other names of weight in the South, and it was in this sense that we expressed ourselves.

If on any other occasion we used such language as the *News* ascribes to us, we cannot recall it, nor can we find the article.

Jas. J. Martin has been nominated for Convention by the Radicals of Martin county.

And now Wilson has caught the spelling bee mania. She is welcome to it.

Mrs. Lindsey has been appointed mistress at Hertford Perquinians County. The office has been made a salaried order office.

The property of the Fair of the Radicals at Charlotte is offered for sale. The Association is only in debt \$347.

The town of Polkton, Anson county, is rapidly building up, and the price for building lots is advancing.

The Democracy of Edgecombe have nominated Messrs. Frederick Phillips and James H. Exum candidates to the State Convention.

Prof. Bond, the wire-walker, is giving free exhibitions in the town of Shelby, much to the delight of the citizens.

Solomon Edmondson and Oliver Trapp were wrestling in Newbern on Thursday last, and Edmondson threw Trapp breaking his collar bone.

Speaking of the prospect of the Conservative candidate for member of the Convention, the *Wilson Advertiser* says its intelligence from all parts of Nash is of the most cheering character.

Prof. W. H. Neave, the founder of the Salisbury Cornet Band, and one of the best musicians in the State, after an absence of six years, has returned to Salisbury, and will take the leadership of the band.

Says the Charlotte *Observer*, "confidence in the Orphan Asylum at Oxford has been coming in so rapidly for the last month, that the manager finds himself in a strait, and assistance is not forthcoming right away, the little orphans are likely to suffer for food."

The *Wilmington Journal* suggests that the University graduating class, which purpose to meet at Beaufort on the 3rd of August, change the day of meeting, as it occurs only two days before the election for delegates to the Convention. We second the advice of the *Journal*.

Col. George Williamson, the able Senator from Caswell, in reply to numerous solicitations become a candidate for the Convention, prints a card in the *Milton Chronicle*, in which he declines. He says: "I was a member of the Legislature calling a convention, and I do not believe that a Convention would as a Legislator have to pass upon the action of any body and I should feel that in passing upon my own acts I should lose that independence of thought and action which I always hope to be able to exercise."

Says the *Wilson Plaindealer*: "On Saturday night last about midnight some villain shot a full load of large squirrel shot through the window of the bed room of Mr. James Lewis, who lives a few miles this side of Farmville in Pitt County. Mr. Lewis and family had retired for the night. The shot came very near striking Mr. Lewis and within a short time of the occurrence, when his body was lying, Caesar Day, colporter, who is employed on the farm of Mr. Lewis was arrested on circumstantial evidence and upon a hearing before magistrates James Day alias William Barrett was sent to jail in default of bail, not being able to give a bond of \$500 to secure his appearance at the next term of Pitt Superior Court. This is an infamous and murderous proceeding and should receive the full benefit of the law if nothing more."

The Southern *Soldiers at Bunker Hill* the Centre of Interest.

A Special to the *Baltimore Gazette* Boston, under date of Thursday, says:

"The greatest interest was manifested in a veteran division, as including the ex-Confederates, toward whom everybody appeared desirous of showing the warmest attention. The organizations of this division nearly all attended the Revolution, immediately following were guests to whom Bostonians desired to do the honors of revived brotherhood, the Washington Light Infantry of Charles S. and North America, the Blues of Norfolk, Virginia. The recognition all along the line, from their entrance into Columbus avenue to their withdrawal with the other veteran organizations of Haymarket Square was one continued ovation, and but for change of position in the line from the advertised programme the demonstrators over their appearance might have been compelled to do so. The division, so anxious to be the people under them the hand of fellowship. The celebrated *Entwistle* battle flag, borne in the ranks of the Confederates, rendered their identity when abreast of the multitude unmistakable, however, and the public expressions were of the heartiest description. The Norfolk Blues made a very fine appearance with their horses and were secured for some time after their arrival. The public mind was not only given expression to by word of mouth but in the mottoes exhibited in the decorations of many private dwellings and stores, and the example of the feelings of the Northern community toward them."

The grand procession was four hours and a half passing any given point and the route was twelve miles long.

Twenty years ago, says the *Brookings*, a poor boy after attempting to pursue the life of Lord Nelson, secretly left his parents' roof with a pocketknife, a sandwich and a bunch of sixpences.

The matter of the Penitentiary which already contains more than six hundred and fifty inmates, is a difficult and practical question, to remove in some measure that burden from our shoulders. Most of our private legislation should be excluded from the General Assembly. However, our limited space does not permit us to catalogue the numerous defects and imperfections of the present constitution or to enumerate the remedies to be effected.

Solomon Edmondson and Oliver Trapp were wrestling in Newbern on Thursday last, and Edmondson threw Trapp breaking his collar bone.

Speaking of the prospect of the Conservative candidate for member of the Convention, the *Wilson Advertiser* says its intelligence from all parts of Nash is of the most cheering character.

Prof. W. H. Neave, the founder of the Salisbury Cornet Band, and one of the best musicians in the State, after an absence of six years, has returned to Salisbury, and will take the leadership of the band.

Says the Charlotte *Observer*, "confidence in the Orphan Asylum at Oxford has been coming in so rapidly for the last month, that the manager finds himself in a strait, and assistance is not forthcoming right away, the little orphans are likely to suffer for food."

The *Wilmington Journal* suggests that the University graduating class, which purpose to meet at Beaufort on the 3rd of August, change the day of meeting, as it occurs only two days before the election for delegates to the Convention. We second the advice of the *Journal*.

Col. George Williamson, the able Senator from Caswell, in reply to numerous solicitations become a candidate for the Convention, prints a card in the *Milton Chronicle*, in which he declines. He says: "I was a member of the Legislature calling a convention, and I do not believe that a Convention would as a Legislator have to pass upon the action of any body and I should feel that in passing upon my own acts I should lose that independence of thought and action which I always hope to be able to exercise."

MADRID, June 19th.—A special dispatch from R. B. says the Pope has changed his mind, and is to go to the Diet to choose new candidates of Church. No candidates will be declared in consistory which will be held in Vatican on the twenty-fifth of June. Bishops only will be recognized on the occasion.

HAVANA, June 19th.—A special dispatch says the insurrection at La Rose has been put down by three young men of that party who revolted against the government of President Lloro de Tejeda since the second of June. The Military Governor and all the Federal Mexican officers have been made prisoners, and the Federal troops stationed at San Antonio have fallen back before the revolutionists. Senator Bara is leader of the rebels.

SHANGHAI, June 19th.—Intelligence has been received from Chin Kiang that the body of native soldiers insulted the United States Consul and his wife. Two of the aggressors were arrested and temporarily confined in the British consulate, when a mob of soldiers surrounded the building and endeavored to effect the rescue of the rebels. The English party was arrested and prepared to defend the Consulate but the Chinese authorities succeeded in quieting the mob. The British and American consuls at this city have left for Chin Kiang. The United States men of war Palos and British war ship Thalia will follow them.

MADRID, June 19.—General Martínez Canclini succeeded in crossing the river. Ebros, notwithstanding heavy fire was kept up upon his forces by the Carlists. By this movement he has established a communication with General Jovellar commander of the army of the centre.

Gen. Fitz Hugh Lee Thanking the Bostonians for the Reception Given to the Southern Visitors.

BOSTON, May 19.—At the Mayor's reception to-day, Gen. Fitz Hugh Lee spoke as follows: "Mr. Mayor, I have but very few words to say. I came here not expecting to speak, and think we have had enough speechmaking. I am here to thank you, but I will not propose to speak with the enthusiasm and splendor of demonstration which we have witnessed at your hands. We will return to Virginia, and we will tell those people that they should come here and see for themselves, as we have seen the people of Boston, and they will."

The American News-Gazette has entered upon its sixth year. During the past season its reputation has been widely extended by its successful operations—competing with the best in the field. It is now the very first premium. In the six months it has eclipsed its most successful record at all points. The new edition of the "Circular Condenser Gums" in Georgia says: "that during the ginning season it ginned 730,000 pounds of cotton, and 100,000 pounds of the same ginned a half weight, or 50 pounds in forty-five minutes. From many sources it is reported that it is well established that a fifty circle will ginn 500 bushels in sixty-five minutes. At the Wilkes-Barre, Pa., ginnings, it ginned 300 bushels in six minutes yielding thirty-six pounds of lint. At the State Fair at Atlanta, Ga., it ginned 100 bushels in 10 minutes, and a 50 circle ginned 50 bushels in 10 minutes.
